CBC CODE BREAKER CHALLENGE 2.0

#AIforchange | Rulebook Summary & Event Guide

Host Institution: Department of Artificial Intelligence & Machine Learning, Global Academy of Technology, Bengaluru

Event Overview: A National-Level 24-Hours Hackathon designed to solve real-world problems using AI and Machine Learning.

1. Key Overview & Highlights

- Event Name:** Code Breaker Challenge 2.0 (#AIforchange)
- Format:** National-Level 24-Hour Hackathon
- Dates:** October 10th & 11th, 2026
- Venue:** Global Academy of Technology, Ideal Homes Township, Raja Rajeshwari Nagar, Bengaluru - 560098
- Team Size:** 2 to 4 members per team
- Registration Fee:** ₹1,500 per team
- Prize Pool:** ₹60,000+ Cash Pool

2. Event Roadmap & Timelines

Stage	Phase / Event	Date & Time
01	Registration Start Date	07th September 2026
02	Registration End Date	02nd October 2026
03	Offline Registration at Venue	10th October 2026, 8:30 AM onwards
04	Hackathon Start Time (Design Round)	10th October 2026, 10:30 AM onwards
05	Implementation Round Start	10th October 2026, 2:30 PM
06	Hackathon End Time	11th October 2026, 8:30 AM
07	Presentation Round	11th October 2026, 8:30 AM – 10:30 AM
08	Valedictory & Closing Ceremony	11th October 2026, 11:00 AM onwards

3. Hackathon Domains & Problem Statements

Domains:

1. **Software & Web Development** – Full-stack applications, websites, platforms, and UI/UX design projects.
2. **Artificial Intelligence (AI) & Machine Learning (ML)** – Data-driven solutions, predictive models, natural language processing, and intelligent systems.
3. **Cybersecurity** – Ethical hacking, security tools, vulnerability detection, and secure system design.

Problem Statements Release: Official problem statements under each domain will be shared with registered teams on the day of the event.

Evaluation Rounds Breakdown:

Round 1: Design Round (4 Hours)

- Rule: No Internet connection allowed.
- Problem statements will be provided at the start.
- Teams must create a comprehensive design document including UI/UX screens (hand-drawn or digital), user roles/responsibilities, database schema/ER diagrams, tech stack selection, and unique planned features.
- **Disqualification:** Failure for Submitting COMPLETE design requirements within 4 hours.

Round 2: Implementation Round (18 Hours)

- **Rule:** Internet usage and personal devices (laptops, mobile phones) are permitted.
- Shortlisted teams bring their ideas to life by building working prototypes based on the Round 1 design document.
- Must feature working frontend/backend integration, database mapping, and key functionality.
- Prepare a presentation outlining implementation steps, technical challenges, and key components.
- **Disqualification:** Failure to produce a working model or missing implementation criteria.

Round 3: Presentation Round (2 Hours)

- Selected teams present their working solutions to a panel of judges.
- Includes a live demo, process explanation, and a Q&A session regarding technical choices and future scope.

Round 4: Closing Ceremony & Prizes

- Announcement of top 3 teams, prize distribution, and issuing of participation certificates for all.

4. Comprehensive Rules & Regulations

4.1 Eligibility & Team Formation

- **Student Status:** Open to currently enrolled undergraduate or postgraduate engineering students.
- **Verification:** Valid student ID or official proof of enrollment is mandatory.
- **Team Size:** Individual entries or teams of 2 to 4 members are permitted. Interdisciplinary and multi-year teams are allowed.
- **Leadership & Roster:** Each team must designate a team leader. No team changes are allowed after the event starts.
- **Exclusivity:** Organizers, sponsors, family members, or students registered in multiple teams are non-eligible.

4.2 Registration & Identification

- **Identity Proof:** Participants must carry both their college ID and a hard copy of a government-verified ID (e.g., Aadhaar, Driving License, Passport).
- **Consent Form:** A signed hardcopy consent form from a parent or guardian is strictly mandatory for all participants.

4.3 Equipment & Amenities

- **Hardware:** Participants must bring their own laptops, chargers and extension board.
- **Connectivity:** The venue will provide continuous access to power outlets and stable Wi-Fi/Ethernet connectivity.
- **Provided Meals:** Lunch, snacks, and dinner will be provided on October 10th. Breakfast will be provided on October 11th.

4.4 Project Development Guidelines

- **Originality:** All projects must be original and built entirely during the 24-hour hackathon period.
- **Alignment:** Projects must strictly align with the provided themes or approved problem statements. Off-topic submissions will be disqualified.
- **Code & Libraries:** Open-source libraries, APIs, and frameworks are allowed if properly credited. Use of unauthorized proprietary or licensed material is strictly prohibited.
- **Submission Deadline:** All projects must be submitted before the official deadline; late submissions will not be evaluated.

4.5 Participation Rules & Conduct

- **Professional Behavior:** Respectful communication with jury members, organizers, volunteers, and peers is mandatory. Misconduct, harassment, or disruptive behavior will result in immediate disqualification.
- **On-Site Presence:** All team members must remain physically present at the venue throughout the event. Remote participation is unauthorized and not permitted.
- **Authority:** The organizing committee's decisions regarding team selection, evaluations, and winner declarations are final and binding.

4.6 Campus Conduct, Safety & Security

- **Campus Access:** Only registered participants and authorized personnel are permitted inside the campus.
- **Property Protection:** Damaging college property may lead to disqualification, financial liability, or legal action.
- **Prohibited Items:** Perfumes, lighters, sharp objects, and outside food or snacks are strictly prohibited inside the venue.
- **Valuables:** Participants are advised not to carry valuable personal items. Organizers will not be responsible for lost items.
- **Security Screening:** Mandatory security checks, including bag checks, will be conducted at the campus entrance.
- **Personal Essentials:** Participants should bring warm clothing, personal medications, and basic hygiene essentials.

4.7 Emergency Protocol & Exit Policy

- **Leaving Venue:** If any team member needs to exit the campus due to an emergency, prior approval and intimation to coordinators is required.
- **Minimum Team Presence:** A minimum of two team members must remain at the venue at all times.

5. Step-by-Step Registration Process

- **Step 1 - Google Form Submission:** Start by registering through the official Google Form link provided by the organizers.
- **Step 2 - Join Official WhatsApp Group:** Join the official WhatsApp group to receive critical announcements, guidelines, and event updates.
- **Step 3 - Onsite Confirmation:** Upon arrival on October 10th, confirm attendance at the registration desk. Onsite registration is mandatory for entry.

6. Judging Criteria

- **1. Innovation & Originality:** Demonstration of original thinking and creative approaches to solving the problem.
- **2. Technical Quality:** Soundness of technical architecture, code quality, and choice of AI/ML technologies.
- **3. Problem Relevance:** Direct alignment and effectiveness of the solution regarding the chosen problem statement.
- **4. Feasibility & Scalability:** Practicality of implementation, ease of deployment, and potential for real-world scaling.
- **5. User Interface & Experience (UI/UX):** Clarity, intuitiveness, visual appeal, and usability of the application.
- **6. Team Collaboration:** Effective teamwork, task distribution, and collaborative execution during the event.
- **7. Presentation & Live Demo:** Clear articulation of the concept, project breakdown, and a fully functional live demonstration.
